About This Game

Once upon a time a school-boy got a copy-book. But it was not a usual one! Anything you draw in this copy-book becomes alive. And so did Liny! The romantic character, who w 5d3b920ae0

could not run sketch processing

The concept is interesting. you "draw" springs to jump and fire balls to destroy walls, all while your character auto runs. it also has a strange learning based concept behind it. as you run there are pictures behind you that depict various landmarks and has information about them. for a dollar its an ok platformer. ill give the thumbs up for the music.
